Summary

Novaris Tech Services LLC is a minority-owned small business established in September 2017 to provide quality and results-driven Information Technology consulting services to the Federal Government, specifically, the IRS.

The company was started by a seasoned IT professional who has supported the IRS's modernization effort of their legacy flat-file-based Tax Processing system for more than fifteen years.

Core Competencies

- Strong horizontal and vertical relationships across IRS AD/ES (Application Development/Enterprise Services) organizational boundaries — both technical and non-technical — as well as other divisions
- Trusted advisor to IRS leadership on existing legacy systems and modernization (Individual and Business Tax Processing)
- Strong domain knowledge of IRS systems, legacy and modernized
- Specialization in legacy IMF/BMF (Masterfile) data structures and Test Data Management
- Support for cross-platform, complex IT integration on IMF modernization projects
- IT systems engineering, programming, and integration services
- IV&V and quality assurance services
- IBM mainframe support
- Requirements and business analysis
- Process re-engineering

Past Performance

We bring over 400 man-years of IRS subject-matter expertise across multiple domains and applications.

We have been crucial to the success of the IRS's implementation of the 2020 CARES Act (Coronavirus Aid, Relief, and Economic Security Act) and the American Rescue Plan Act of 2021 during the pandemic.

We provided technical leadership and subject-matter expertise on IMF/BMF tax processing, CADE2 modernization, and legacy 701 reporting across multiple IRS applications — including analysis and design, development, database administration, testing, and integration support for:

- CADE2 Database Modernization
- IMF / BMF
- ITPE (Individual Tax Processing Engine)
- IDRS (Integrated Data Retrieval System)
- MeF (Modernized e-File)
- 701 Extracts
